

Community Engagement Centre

An exciting addition to Carstairs in 2010 was the Community Engagement Centre. Community Engagement Sites (CES) act as storefronts, giving students, businesses, industry and community members access to the world. They provide learners— young and old—with high speed data exchange, video conferencing, and other educational technology, along with technical support to enhance the rural Alberta lifestyle.

Located at 1402 Scarlett Ranch Blvd, in the same facility as the Carstairs Elementary School and Bob Clark Library, the Engagement Site can help meet your needs, utilizing SuperNet technology to access learning through Video Conferencing.

The Carstairs Community Engagement site is equipped to meet your meeting needs.

This state of the art facility has videoconferencing capabilities and smart board technology. The site can be rented to host your meeting.

The next time you have to go out of town for a meeting consider the Engagement Site. Video conference the meeting to the Engagement Site to save you money and travel time.

Need to have a meeting that others need to attend? Why not have it at the Engagement site! We have the ability to teleconference with many other sites in Alberta.

The site is also equipped with computer workstations that are available for classes.

Refreshments and lunch can be arranged for an additional cost.
