

Town of Carstairs Economic Development Website

The Town of Carstairs in partnership with Mountain View County, the Towns of Olds, Didsbury, Crossfield and Sundre, the Village of Cremona and Localintel have created an online resource to help existing business and potential businesses access information about the local economy and business environment.

This new website will provide entrepreneurs and businesses with up to date information about the local market, industry specific information, and competition analysis. Rather than entrepreneurs visiting multiple websites for information, the site seeks to serve as a one stop shop, where all the information they require for effective business decision-making is at their fingertips. The microsite makes it easier for entrepreneurs to:

- Research local business climate and industry trends
- Identify their customers and competitors
- Uncover local opportunities
- Find available properties in the area

The website is mountainviewcorridor.ca.

Make this your first stop for doing business in the Town of Carstairs.
